

STARS II PROPOSAL RESPONSE KIT USER AGREEMENT

- 1. I understand that the Proposal Response Kit is intended to provide baseline content to develop a proposal submission for the STARS II GWAC Open Season solicitation QTA0015MDA2001. The Proposal Response Kit on its own will not completely fulfill the proposal package submission requirements listed in the GSA’s solicitation. It is intended to support my efforts in completing the full submission package.
- 2. I understand that the information contained in the Proposal Response Kit must be customized to our company and our intended contract approach. Simply copying and pasting content information without customization or adding specific approaches for the company may result in the GSA deeming such a proposal as non-responsive and not eligible for contract award.
- 3. Proposal Dynamics makes no claim that using this information will guarantee a STARS II contract award by the GSA ordering agency. There are many factors used by the GSA to determine contract awards including pricing, past performance, number of offerors, etc.
- 4. The Proposal Response Kit is offered under a Limited Use License and shall not be retransmitted to other persons or corporate entities without the express written consent of Proposal Dynamics Inc.
- 5. I understand that the Proposal Response Kit will be utilized by multiple 8(a) companies, and is not transferred to my company as unique intellectual property.
- 6. Proposal Dynamics Inc. will not be held liable for claims of loss or liability incurred by using information contained in the Proposal Response Kit. I use the information provided under free will.
- 7. I understand that once payment is made, the intellectual property in the Proposal Response Kit cannot be repossessed by Proposal Dynamics Inc., therefore making payments non-refundable.

ACCEPTED AND AGREED
